Who we are

A&S Technology Services is a family-run technology company serving Miami-Dade and Broward. We design custom AI assistants, automate repetitive business processes, and provide IT support and consulting for organizations of every size — from a home office to a company with dozens of employees.

Our founder spent years leading IT teams at large institutions. We bring that same standard to every project, large or small — with the attention and availability of a local business.

Free 30-minute discovery call. Remote and on-site service. Se habla español.

Why work with us

One number for everything

Your website, your network, your automations and your support all come from the same person. No finger-pointing between vendors.

We stay after delivery

Most providers disappear once the invoice clears. We build long-term relationships, not one-time jobs.

We speak plain language

No jargon, no talking down to you. You will understand what we are doing and why it costs what it costs.

Bilingual service

English and Spanish, at no extra cost.

What we do

Jump to what you need. Every engagement starts with a free 30-minute call to understand your situation and confirm we are the right fit.

01 AI Assistants & Automation	02 Microsoft 365 Integration
03 IT Support & Managed Plans	04 Web Design
05 Setup & Installation	06 Smart Home
07 HR Systems	08 Consulting

01 AI Assistants & Automation

Software that handles the repetitive work so your team can do the work that matters.

Automation assessment — we map your processes and show you what can be automated	\$450
Single process automation (reports, notifications, data sync)	from \$1,200
Multi-process automation with system integration	from \$3,000
Custom AI assistant trained on your business	from \$4,500
Ongoing automation support & monitoring	from \$150/mo

02 Microsoft 365 Integration

Most businesses pay for Microsoft 365 and use a fraction of it. We turn what you already own into tools that actually save you time.

Microsoft 365 audit — what you pay for vs. what you use	\$400
Migration to Microsoft 365 (up to 5 users)	\$500
SharePoint setup — document structure, permissions, libraries	from \$800
Power Automate workflow (approvals, alerts, notifications)	from \$450
Microsoft Graph integration with external systems	from \$2,000
Small business SharePoint intranet	from \$2,500
Team training session (2 hours)	\$350

03 IT Support & Managed Plans

Predictable monthly coverage instead of surprise repair bills.

Home plan — monitoring, remote support, 1 monthly visit	\$99/mo
Business Basic — monitoring, remote support, maintenance, antivirus	\$95/user/mo
Business Standard — adds backups, email security, monthly visit	\$135/user/mo
Business Complete — adds priority support, unlimited visits, quarterly strategy	\$185/user/mo
Hourly support — residential	\$85/hr
Hourly support — business	\$110/hr
Remote support	\$75/hr
Emergency / after hours	from \$150/hr

04 Web Design

Fast, secure, mobile-ready sites — built and maintained by the same people who handle your IT.

One-page site (presentation, services, contact)	from \$800
Small business site, 4–6 pages	from \$1,800
Bilingual version (English / Spanish)	+\$400
Domain, hosting & professional email setup	\$250
Google Business Profile setup	\$300
Monthly maintenance — updates, backups, security, minor edits	from \$95/mo
Online store	from \$3,000

05 Setup & Installation

New computer setup — data transfer, software, accounts	\$150
Home WiFi network — router, configuration, security	\$250
Small business network (up to 10 devices)	from \$450
Security camera installation (per camera, equipment not included)	\$125
NAS / local backup server setup	\$350
Virus removal & system recovery	\$180

06 Smart Home

Starter package — voice assistant, 4–6 devices, basic scenes, training	\$450
Intermediate — adds zoned lighting, thermostat, smart lock, routines	\$950
Whole home — lighting, climate, security, cameras, audio, full integration	from \$1,800

07 HR Systems

We implement and connect the tools. Payroll, labor law and compliance stay with your accountant or HR professional.

HR process assessment	\$450
HR platform implementation (BambooHR, Gusto or similar)	from \$1,200
Employee data migration from spreadsheets	from \$500
Hiring & onboarding automation	from \$1,500
Internal employee portal on SharePoint	from \$2,000
Ongoing system support	from \$150/mo

08 Consulting

Assessment fees are credited toward your project. If you hire us for the work, what you paid for the assessment comes off the final invoice.

Discovery call (30 min) — you explain the situation, we tell you if we can help	Free
On-site diagnostic — hands-on review with written findings	\$75
Technical advisory	\$140/hr
Small business security audit	\$650
Annual technology plan — what to buy, when, and budget	\$900

How we work

1. We listen

A free 30-minute call. You explain the situation, we tell you honestly whether we can help. No sales pitch.

2. We assess

For complex work, a paid assessment produces a written plan. That fee is credited back if you hire us.

3. We build

A written estimate first, then the work — with updates along the way. You know the cost before we start.

4. We stay

30-day workmanship warranty, and we are here after delivery.

Good to know

- Prices shown are starting points. Final quote depends on the scope of your project.
- Assessment and diagnostic fees are credited toward the project if you hire us.
- Labor only — hardware and software licenses are billed separately or purchased directly by you.
- Projects over \$2,000 require a 50% deposit; balance due on delivery.
- 30-day warranty on workmanship. If the same problem returns, we fix it at no charge.
- Travel included within 20 miles of Miami. Beyond that, a mileage fee applies.
- One-hour minimum on all on-site visits.

Ready to talk?
The first 30 minutes are free.
